BETTER HEALTH

The Prevention Plan can help you:

- ✓ Lose weight
- ✓ Lower your blood pressure
- ✓ Prevent type II diabetes
- ✓ Lower cholesterol
- ✓ Quit smoking
- ✓ Look and feel better
- ✓ Save money now and in the future on health care costs by getting healthier

MACAW™ from The Prevention Plan™, available at no cost through the App Store and Android Market, makes it simple to stay focused on your health. This full-featured app integrates with your Plan, as well as many other health apps and wireless devices to help you track your exercise, weight, calories and other important health information. Get reminders about needed health screenings, pick up valuable health information and complete activities to earn chances for monthly prizes.

@MacawApp

Do the best you can.

We know it is not easy to find time and energy to devote to your health. The Prevention Plan makes it easier to take the small steps that lead to big improvements in your health. This year-long program is designed to work for you in the real world — at home, at work, wherever you are.

Just follow the steps.

Upon becoming a member, you will receive easy-to-follow instructions to:

- 1 Register
- 2 Complete a comprehensive Health Appraisal
- 3 Complete a blood test and biometric measurements.*

From that detailed information, a customized Prevention Plan Report will be designed just for you, and you will be given all the tools and personal attention you want or need to feel your best.

STARTS HERE.....↓

The Prevention Plan's valuable benefits:*

- **New resource center** for parents to help your kids live healthier

The Prevention Plan is shown to help reduce major health risks

More than 30 risks analyzed

Receive your customized, confidential program.

By collecting an in-depth inventory of your health, lifestyle and other factors, the health specialists at The Prevention Plan complete an analysis of your current and future health risks. You are then provided with a clinically sound roadmap to feeling better, looking better and being in the best health possible. Plus, it's completely confidential. You can be assured your sponsor and insurance company will never see your personal information.

Developed by leading preventive medicine specialists.

*Options available depend on program purchased
